

An outdoor digital billboard in your town would be a fantastic way to advertise your profile and community involvement.

VAST Billboards is a proudly New Zealand owned and operated, outdoor digital billboard company, focused on increasing the accessibility of digital advertising to everyone. We are doing this by providing the local community opportunities to advertise at reasonable rates.

Some of the key benefits of outdoor LED screen advertising include:

- ✕ Building and maintaining brand awareness in a cost-effective way;
- ✕ Reach mass audiences in a powerful and impactful manner;
- ✕ Target specific audiences through placement in strategic locations;
- ✕ Enhance the effectiveness of your other advertising and marketing efforts by reinforcing your key messaging.

VAST can offer you the service of Content Management for your monthly billboard advertising.

We will evaluate your opportunity and create a plan to ensure your outdoor LED screen location reaches its maximum potential. Get in touch to see what passive income opportunities there could be for your LED screen NZ site.
